We, the persons or entities listed above, hereby pledge our support for the efforts of the Californians for Property Rights Protection (Committee) to qualify the Californian Property Owners' Protection Act Constitutional Amendment (Act) for the June 2008, California State Election.

We realize that the Act will require the collection of 763,789 valid voter signatures on petitions to be circulated by the Committee to qualify the Act for the ballot. The Committee estimates that the qualification effort (printing, collection, validation) will cost \$1.7 MILLION. Once the Committee has collected \$1.7 million in pledges (such as this one), it has represented that enough money will be deposited in the Committee bank account to begin paid signature gathering. Once the work has started, all pledges will be due any payable to the Committee. If we fail to reach our financial goal at the time we would otherwise commence the signature gathering process, all funds will be returned to donors.

We understand that the signature gathering work cannot begin until the Committee has received Title and Summary for the Act from the Attorney General (receipt expected in June 2007 but not received at this writing), and because of time constraints for collection of the signatures needed, pledges of support must be obtained and tallied now.

We agree that the success of this vital property rights protection effort depends on the support of all property owners and, therefore, we hereby complete and return this Pledge to the Committee.
